

An introduction to sexual health best practice in the workplace

# SEXUAL HEALTH

## ASSESSMENT TRAINING

### FOR CLINICIANS

Are you a clinician looking to increase your knowledge of sexual health best practices? This one and a half day training will focus on supporting healthy sexuality and communicating sexual health and harm reduction concepts to increase capacity among front line service providers. The training is open to doctors, nurses, nurse practitioners, physician assistants and students in clinical disciplines.

**Participants will walk away having covered the following topics:**

- Language and Communication
- Culture, Space & Identity
- Sex Positivity
- Stigma
- Harm Reduction
- Understanding Sexual Health Best Practices
- Understanding HIV Concepts
- Giving an HIV Test Result
