

Research Partnerships

Nine Circles Community Health Centre supports community-based, clinical, social science, and scientific research to strengthen the services and supports offered to people living with, and at risk for, HIV in Manitoba. All potential research projects are reviewed by the Nine Circles Management Team and the Nine Circles Research Committee to consider resource requirements, potential impact on clients, and relevance to the organization's strategic plan.

In order to assess our ability to partner with you, we require information about your project. Please complete the questions below (if your project or proposal is in an early stage of development, please provide as much information as possible):

1. Please provide a summary of your research project or idea:

2. If you are proposing a partnership for a specific project, have you completed a university ethics review? (If yes, please provide a copy of the ethics approval).

3. Why are you interested in partnering with Nine Circles?

4. What type of support do you need from Nine Circles (i.e. space for interviews, promotion of your project)?

5. What type of Nine Circles' staff time will your project require (e.g. supporting recruitment, facilitating informed consent, participating in advisory committee, reviewing results, disseminating findings)?

6. Will Nine Circles receive any compensation for participation?
 - a. Will study participants receive any compensation for participation (e.g. honoraria, meal, bus tickets)?

7. How will you share your project findings with Nine Circles staff and clients?
