

## Facebook Fundraiser Details

Need some content for your fundraiser? We've made it easy for you! Copy our fundraiser description so your Facebook friends know how Nine Circles helps our community.

### Fundraiser Description

Nine Circles delivers services to those who are most likely to experience barriers to health care. Our programs seek to address the physical, mental, emotional and social aspects of people's lives. While core funding supports our day to day activities, many of our health promotion, wellness and peer-based programs depend on donations. In order to expand access and more meaningfully engage members of our community, we need your help. Your sponsorship goes towards:

1. Group-based programming that combats isolation and helps people build strategies to live well and improve their health.
2. Peer-based programming that provides leadership opportunities and meaningfully engages those with lived experience in program planning, evaluation and public communications.
3. The Nine Circles Food Bank which provides bi-weekly access to supplemental food for people living with HIV who are impacted by food insecurity.
4. The PHA Fund which provides financial support to people living with HIV for quality of life needs where no other source of income is available.
