CAREER
OPPORTUNITY

Community Health Nurse (Nurse IV)

Primary Care Outreach Clinic Swan River, Manitoba

Full Time Permanent Position (HR Posting #: PMHRNRPN211781)

The Primary Care Outreach Clinic's goals are to deliver primary health care services to individuals and groups in their natural settings, empower individuals to access health and social services within their communities and support behaviour change using a harm reduction approach. The clinic offers opiate agonist treatment, safer smoking and injection supplies, and low threshold access to Hep C treatment & HIV care.

The Community Health Nurse (CHN) works within a MyHealth Team model that includes physicians, nurse practitioners, social worker, pharmacist, and a mental health worker to support clients with accessing and maintaining meaningful primary health care relationships. The CHN provides care and case management for persons with complex medical and social needs, advocates for client centered system alignment and innovation, and links clients with community resources.

Qualifications include a Baccalaureate Degree in Nursing with licensure as a Registered Nurse within the province of Manitoba. The ideal candidate will have experience and/or professional interest in supporting health and wellbeing via the provision of harm reduction interventions, monitoring opiate agonist treatment with Suboxone, Sublocade and methadone, facilitating treatment of Hepatitis C with Direct Acting Antivirals and supporting HIV care as a key player in an interdisciplinary care team.

Benefits

- Rewarding work in a supportive interdisciplinary clinic setting.
- Competitive salary
- Option to enrol in a benefit package
- Member of the Manitoba Nurses Union
